

MYCOSYSTEMA

An International Publication of Systematic and Evolutionary Studies on
Lichenized and Non-lichenized Fungi, Oomycetes and Gymnomycetes

Vol. 7

31 December 1994

CONTENTS

Original Papers

ZYGOMYCOTA

- Cunninghamella phaeospora* var. *multiverticillata* var.
nov. and its mating with var. *phaeospora* Zheng RY and Chen GQ 1

ASCOMYCOTA

- A few petiole-inhabiting discomycetes in China Zhuang WY 13
A new species of *Bifusella* (Rhytismatales, Ascomycota) Lin YR 19
Studies on the lichen family Cladoniaceae in China III
A new genus to China: *Thysanothecium* Wei JC, Jiang YM and Guo SY 23
Studies on the lichen family Cladoniaceae in China IV
Species of *Cladonia* new to China (Ascomycota) Guo SY and Wei JC 29

BASIDIOMYCOTA

- An annotated checklist of rust fungi from the
Mt. Qomolangma region (Tibetan Everest Himalaya) Zhuang JY and Wei SX 37
Anthracoidea and allied genera in China (Ustilaginales) Guo L 89
One new species and one new record of *Ganoderma* from China
(Aphyllphorales, Basidiomycota). Zhang XQ 105

MITOTIC FUNGI

- A review of *Dactylella* and a new species Zhang KQ, Liu XZ and Cao L 111
Four new species of *Pseudocercospora* Guo YL 119
A new species of *Mycovellosiella* causing angular leaf spot
of Bunge pricklyash Guo YL and Cao ZM 129

MYXOMYCOTA

- Myxomycetes from China XIII: A new species of *Licea*. Li Y and Li HZ 133

MYCOSYSTEMA publishes papers from contributors anywhere in the world on systematic and evolutionary studies of lichenized and non-lichenized Fungi, Oomycetes and Gymnomycetes.
